

SAVE MONEY ON YOUR ELECTRICITY BILLS!

Residents of **Uptown** and **Oakland** will receive *free energy-saving tools and tips* through participation in a one-year **energy saving** challenge.

Ways to get involved...

Be a **Program Participant**

Sign up for the Energy Challenge, try the new tips or tools you receive every month, and let us track your energy savings. We want your input - feel free to share stories and photos about successes or challenges. You may also be eligible to apply for free weatherization services on your home.

OR

Be an **Energy Coach**

Apply to be an Energy Coach – if you are selected, you will get the same tips and tools as Program Participants plus a small stipend for your help. You will attend free training and planning sessions to help roll out the program in your neighborhood, organize monthly distribution of information on tips and tools, and gather feedback from Program Participants.
